

# Conservation Landscaping for the Lake Tahoe Basin

## Shade Tolerant - Perennials

For Erosion  
Control

*Anemone hupehensis* (Japanese anemone): adapted, 1'-2' height, sun to shade, medium water needs, reseeds, fall bloomer

*Aquilegia formosa* (columbine): native, 2'-3' height, medium water needs, attractive red flowering perennial that blooms in spring and summer, many hybrids available

*Astilbe* sp. (false spirea): adapted, 1 1/2' - 3' height, medium to high water needs, large flower spikes, attractive foliage

*Cimicifuga racemosa* (black bugbane): adapted, 3' - 5' height, medium water needs, drought tolerant, tall flower spikes, attracts butterflies,

*Convallaria majalis* (lily-of-the-valley): adapted, 6"-1' height, medium water needs, spreading, tolerates deep shade, may be summer dormant

*Dicentra* hybrids (bleedingheart): adapted, 1'-2' height, medium water needs, clumping, may be summer dormant, easy to grow, tolerates deep shade

*Digitalis* hybrids (foxglove): adapted, 2'-3' height, medium water needs, biennial, reseeds, attracts hummingbirds

*Ligularia* spp. (Ligularia): adapted, 2'-4' height, medium to high water needs, dark leaved varieties, tolerates deep shade

*Heuchera* hybrids (alumroot or coral bells): native and adapted, 1'-2' height, medium water needs, clumping, attractive foliage, easy to grow

# Shade Tolerant - Perennials

*Polemonium* spp. (Jacob's ladder): native and adapted, 6"-2' height, medium water needs, reseeds

*Mimulus guttatus* (common monkey-flower): native, 1'-3' height, part shade, high water needs, short life span

*Saxifraga* spp. (Sasifrage): native and adapted, 1'-2' height, minimal to medium water needs

*Sedum* spp. and hybrids (stonecrop):

native and adapted, 3"-2' height, prefer sun, minimal water needs, drought tolerant, succulent, suitable hybrids include 'Autumn Joy' (tall) and 'Dragon's Blood' (low-growing), many hardy varieties available

*Tiarella cordifolia* (foamflower): adapted, 1' height, medium water needs, spreading, rapid growth, tolerates deep shade, close cousin to coral-bells, with similar flowering sprays of white or pink

*Tricyrtis* hybrids (toad-lily): adapted, 1'-2' height, medium water needs, tolerates deep shade, fall blooms

*Trollius* spp. (globeflower): adapted, 1'-3' height, sun to shade, high water needs

Note: Depending on site specific conditions, cultural practices, and individual seed or plant vigor; plant establishment, needs and care may vary. This is not a complete list.
